JUERIC
lighting

Mas silencio más aire

Con menor consumo

Nuevos motores DC 3.0

Incorporamos nuevos motores con un diseño innovador que nos proporcionan unas prestaciones mejoradas y un consumo energético más eficiente.

Strong Wind es una novedosa estructura de aspas que consigue producir un mayor caudal de aire.

Nuestra propuesta presenta ventiladores de alto nivel estético en luminarias con altas capacidades eólicas.

Desde Jueric Lighting hemos creado 3 series de producto para que pueda seleccionar el ventilador que más se ajuste a sus necesidades.

GAMA NATURAL

Ventiladores con un diseño vanguardista de aspas fijas con materiales de alta calidad, motores alta eficiencia, gran potencia.

Fans with an avant-garde design of fixed blades with high quality materials, high efficiency, high power motors.

GAMA CEILING

Ventiladores ajustados al techo con aspas centrales rotativas 360°.

Fans fitted to the ceiling with 360° rotating central blades.

GAMA RETRACTIL

Ventiladores con aspas retractiles con gran capacidad lumínica y motores de alta eficiencia.

Fans with retractable blades with great light capacity and high efficiency motors.
